Enter information about the resource you are attaching to your asset record	
Name	Water Sharing Plan – Unregulated River Water Sources
Description	<p>This dataset contains best endeavours aggregation and depiction of In Force Water Sharing Plan (WSP) – Unregulated River Water Sources & Management Zones derived from WSP’s gazetted under the NSW Water Management Act 2000.</p> <p>PLEASE NOTE: In the case of any discrepancy between this digital dataset and the published Water Sharing Plan (accessible on the www.legislation.nsw.gov.au site) the instrument as made by the Minister remains the authoritative source and should be used to both interpret the intent of the Plan and in subsequent decision making. Best endeavours have been made in collating relevant Water Sharing Plan boundary and attribution contained in this dataset. However, no warranty is provided as to the accuracy or currency of this representation. The department does not warrant and is not liable for the use of this material as per the licenced sharing conditions CC-BY 4.0.</p>
Format	<input type="text" value="ArcGIS"/> ArcGIS Rest Map Service, ArcGIS Feature Service, Open Geospatial Consortium (OGC) WMS & Open Geospatial Consortium (OGC) WFS, File Geodatabase
Publish resource as <u>open</u> data?	<input type="text" value="Yes"/>

Scope, coverage and geography

Enter information about the scope, coverage and geography of the Asset(s)	<p>Extent covers the whole of NSW.</p> <p>Geometry for Unregulated River Water Sources was sourced initially from sub-catchment data created by the earlier NSW Department of Natural Resources.</p>
Title describing the files:	<ol style="list-style-type: none"> 1. ArcGIS REST MAP SERVICE – Water Sharing Plan – Unregulated River Sources 2. ArcGIS REST FEATURE SERVICE – Water Sharing Plan – Unregulated River Sources 3. WMS – Water Sharing Plan – Unregulated River Sources 4. WFS – Water Sharing Plan – Unregulated River Sources

	5. ESRI File Geodatabase - Water Sharing Plan - Unregulated Rivers

	<p>https://pro.arcgis.com/en/pro-app/latest/help/data/services/ogc-services.htm</p> <p>5. ESRI File Geodatabase - Water Sharing Plan - Unregulated Rivers <u>File geodatabases—ArcGIS Pro Documentation</u></p> <p>Description of Field headings/Attributes <i>(of the Unregulated River Water Feature Class)</i></p> <p>[Major_Catch] The major river catchment to which the Plan applies.</p> <p>[NSW_ACT] Whether the polygon represents an area in New South Wales or the Australian Capital Territory or Victoria.</p> <p>[Name_of_the_Plan] The name of the Plan as it appears in Clause 1 of the legal order.</p> <p>[Water_Sharing_Plan] A slightly abbreviated form of the name of the Plan.</p> <p>[Unregulated_Water_Source] The name of the water source as it appears in the legal order.</p> <p>[Unregulated_Management_Zone] The name of the management zone (if any) as it appears in the legal order. Most sources are not split into management zones so this field is mostly blank.</p> <p>[Trading_Zone] The name of the trading zone (if any) as it appears in the legal order. Most sources do not have trading zones so this field is mostly blank.</p> <p>[Extraction_Management_Unit] The name of the extraction management unit as it appears in the legal order. This is set for all but a few polygons.</p>

Additional Comments

<p>Enter any additional comments pertaining to the Asset or files within</p>	<p>For instructions on how to add ArcGIS Server map, feature services, WMS and WFS refer to the following ESRI instructions:</p> <ul style="list-style-type: none">• ArcGIS10.8 https://desktop.arcgis.com/en/arcmap/latest/map/web-maps-and-services/adding-arcgis-server-map-services.htm• ArcGIS PRO https://pro.arcgis.com/en/pro-app/latest/help/mapping/layer-properties/add-layers-to-a-map.htm <p>Note: Due to the large size of spatial file layers, the datasets have a scale threshold. Spatial features will therefore only be visibly correctly when zoomed into quarter of the state and will not be visible at the state wide scale.</p>
