

Title	Shellharbour LGA Vegetation Map, 2001. VIS_ID 3962
Alternative title(s)	ShellharbourLGA_2001_E_3962
Abstract	<p>The natural vegetation in the City of Shellharbour (LGA). Map of native vegetation that has retained most of its structural and floristic characteristics, including regrowth that has achieved or has the potential to achieve a near natural structure. Although the study focuses on natural vegetation, a few non-natural communities, most of which are dominated by introduced plants, were also included in order to complete the vegetation map. VIS_ID 3962</p> <p>Map footprint supplied only. Contact Shellharbour Council for access to the vegetation map.</p>

Lineage	Floristic and other ecological data collected at locations considered to be representative of the vegetation community being sampled. Vegetation mapping prepared after intensive field surveys undertaken in 1999. Boundaries of vegetation communities identified on 1:8000 colour aerial photos.
