Title	NSW State-wide Hydrogeological Landscapes 2020 (First Edition)			
Alternative title(s)	NSW HGL 2020			
Abstract	This integrated state-wide hydrogeological landscapes (HGL) dataset provides a: * consistent salinity hazard map layer at state-wide scale; * data capture mechanism for all HGL work; * resource for salinity and landscape planning; * framework for salinity monitoring and project activity; * inform modelling including salinity modelling and pressure-state-response modelling. *			
	It is based on existing HGL mapping in NSW and ACT, and salinity hazard classifications provided for <i>Salinity Hazard Mapping for Catchment Action Plans</i> and <i>Salinity Technical Reports</i> prepared for NSW Water Resource Plans.			
	The dataset attributes overall salinity hazard to each HGL unit, as well as impact ratings for salt land, salt load and stream EC.			
	Development of this product was funded by the DPIE Water <i>Basin Salinity Management Program</i> .			
	The majority of the area covered by this product is based on regional scale mapping. Recommended scale of use is 1:250,000 . Some areas have been mapped at a finer scale. Many of these are available on <u>SEED</u> as separate HGL products for each specific area.			
	The state-wide HGL is also provided as a layer on <u>eSPADE</u> .

	 This product into portates a number of NGL datasets of Varying scales to develop an integrated overall state-wide salinity hazard map for NSW. The project captures HGL and other salinity work conducted since 2007. This includes, but is not limited to: * Hydrogeological Landscapes (HGL) of the Australian Capital Territory 2017 (Third Edition), * Braidwood 1:100 000 Hydrogeological Landscapes: June 2010 (First Edition), * Hydrogeological Landscapes of the Capertee and Coxs River Valleys: August 2019 (Second Edition), * Hydrogeological Landscapes for the Central West Catchment Management Authority Western Study Area: May 2013 (Second Edition), * Hydrogeological Landscapes for the Eastern Murray Catchment: May 2015 (Second Edition), * Goulburn Hydrogeological Landscapes: June 2011 (First Edition), * Sydney Metropolitan Western Study Area Hydrogeological Landscapes: March 2011 (First Edition), * Western Sydney Hydrogeological Landscapes: May 2011 (First Edition), * Bathurst Rural Hydrogeological Landscapes: June 2011 (First Edition) - unpublished, * Dubbo Urban Landscapes Interpretation Project - unpublished, * Central West extension projects (Parkes, Forbes, Weddin Shires, Warrumbungle & Lachlan Shires) - unpublished, * Conceptual stage HGLs (Jugiong, Muswellbrook) - unpublished, * Upper Lachlan HGL- unpublished, * Upper Murrumbidgee HGL- unpublished, * Salinity Hazard Mapping for Catchment Action Plans, * Salinity Technical Reports for NSW Water Resource Plans. *
