| Title                                                                      | Large-flowered collomia (Collomia grandiflora) 2019 Survey                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Abstract                                                                   | <p>This survey was conducted to establish the current range of this invasive species and to provide a baseline for further surveys. Herbarium specimens were collected to substantiate the current distribution. The objectives of the current survey were to:</p> <ul style="list-style-type: none"> <li>• re-locate plants at sites where previously recorded</li> <li>• record habitat type</li> <li>• collect herbarium specimens</li> <li>• record any other ecological observations.</li> </ul> <p>This document reports on a four-day survey conducted between February 2019 and May 2019 in Kosciuszko National Park. The report also includes up-to-date (March–April 2019) records from NPWS staff members for areas that could not be covered during the survey period.</p>                                                                                           |
