

Title	Little Llangothlin Nature Reserve Vegetation 2011 VIS_ID 4743
Alternative title(s)	LittleLlangothlinNR_2011_E_4743
Abstract	<p>Little Llangothlin Nature Reserve vegetation mapping was undertaken by Dr John T. Hunter in 2011 by contract for the NPWS Northern Tableland Region. Little Llangothlin Nature Reserve is located 18 km north east of Guyra, NSW.</p> <p>The vegetation of the Little Llangothlin Nature Reserve is described and mapped (scale 1:25 000). Communities are defined based on classification (Kulczynski association).</p> <p>VIS_ID 4743</p>

Lineage

Dr John T. Hunter prepared the report of the vegetation of the Little Llangothlin Nature Reserve. Aims included the collation of existing information from previous floristic surveys and that the survey of ten, 20 x 20 m stratified full vascular plant floristic sites is carried out in order to complete a comprehensive investigation of the vegetation and flora of Little Llangothlin. This report represents the findings of this study. The collated information is to be used as a guide for management purposes. The requirements of the investigation were: The requirements of the investigation were: 1. Collate existing information from previous vegetation surveys conducted within the conservation areas. 2. Site placement to be based on selected environmental variables and be distributed based on the area they occupy. 3. Identify weed species and their occurrence. 4. Identify RoTAP, EPB&C Act and TSC Act species and their occurrence. 5. Identify regionally significant species. 6. Provide known fire ecology information on species and communities. 7. Construction of a vegetation map based on communities as defined by classification. 8. Provide management recommendations.
