

Title	National Heritage List
Abstract	These data provide locational and attribute information for places nominated to and included in the National Heritage List as determined by the Australian Government managed by the Department of the Environment, Wildlife Division. National Heritage List polygons with attribute information describing the place name, class (indigenous, natural, historic), and status. Places subject to confidentiality agreements are included in these data but the location is generalised to the bounding 250k mapsheet. The location data for place nominations that have been rejected, are ineligible, removed or destroyed are not included in the publicly downloadable spatial dataset.
