

Title	NSW Greenhouse Gas Emission Projections, 2022–2050
Abstract	<p>This dataset contains ‘Business As Usual’, ‘Program/policy abatement as originally designed’ and ‘Program/policy abatement as currently tracking’ greenhouse gas emission projections for NSW by year and by Intergovernmental Panel on Climate Change (IPCC) sector out to 2050.</p> <p>The Net Zero Emissions Dashboard presents past and projected future greenhouse gas emissions for New South Wales. This interactive dashboard provides state and local government, business and communities with insight into emission trends and progress being made towards the goals of reducing the state’s emissions by 50% below 2005 levels by 2030 and 70% below 2005 levels by 2035 and achieving net zero emissions by 2050.</p>
