

<b>Title</b>	South East Local Land Services Biometric vegetation map, 2014. VIS_ID 4211
<b>Alternative title(s)</b>	SE_LLS_Biometric_2014_E_4211
<b>Abstract</b>	<p>Eco Logical Australia was contracted by the South East Local Land Services to compile a seamless standardised vegetation map, from a combination of existing available data and covering the full extent of the South East Local Land Services (SE LLS) region. Available vegetation datasets covering the study area were reviewed and prioritised for the purposes of developing a best available combined vegetation dataset across the SE LLS region. The prioritisation process has considered a number of criteria to prioritise / rank the suitability of each dataset to prepare the compiled best available vegetation map. This focussed on the area (within the SE LLS region) that is outside the former Southern Rivers CMA area as a vegetation map compilation for the Southern Rivers CMA area had previously been undertaken by the CMA. The resulting dataset makes up a combined best available vegetation dataset for the SE LLS area. Please note the full data are available from the South East Local Land Services. The download package contains the footprint only. Contact the LLS for data access: <a href="https://southeast.lls.nsw.gov.au/">https://southeast.lls.nsw.gov.au/</a></p> <p>VIS_ID 4211</p>

<b>Purpose</b>	To compile a seamless standardised vegetation map, from a combination of existing available data, covering the full extent of the South East Local Land Services (SE LLS) region.
	Completed

Status

### Spatial representation

Type vector

Geometric Object Type curve

Geometric Object Count 1

### Spatial reference system

Code identifying the spatial reference system 4283

Spatial resolution 0 m

Additional information source to compile a seamless standardised vegetation map, from a combination of existing available data and covering the full extent of the South East Local Land Services (SE LLS) region.
