

Title	Vegetation Survey of Mullion Range SRA and Wambool, Freemantle, Girralang and Eugowra Nature Reserves. VIS_ID 1011
Alternative title(s)	WamboolNR_E_1011
Abstract	<p>Vegetation map digitised from Porteners, M.F. (2000). The composition and extent of the present vegetation within Wambool, Freemantle, Girralang and Eugowra Nature Reserves and Mullion Range State Recreation Area (SRA), in the Central West region of NSW, is described and mapped at 1:25 000 scale (1:50 000 scale for Eugowra) from intensive quadrat samples, field traverses and aerial photograph interpretation. Eleven vegetation communities are described and 302 species (308 taxa) of vascular plants recorded from 70 families, several of which are at their geographical limits or regionally restricted. A significantly high proportion of species (19%) are exotic.</p> <p>VIS_ID 1011</p>

Lineage

Floristic surveys were conducted throughout the five reserves comprising the study area, using stratified random sampling with replication where possible within the attribute class. Sites were mainly distributed to reflect the altitudinal gradients and aspects within the reserves and the structural variation of the vegetation. The data were analysed using PATN multivariate analysis and the vegetation communities mapped using recent aerial photographs, site data and ground reconnaissance.
