

Title	Wallabadah Nature Reserve Vegetation 2003. VIS_ID 703
Alternative title(s)	WallabadahNR_2003_E_703
Abstract	Vegetation mapping for Wallabadah Nature Reserve. Updated API and transferred to 1:25,000 topo maps by Travis Peak, Natural Assets Environmental Survey and Assessment, 2003 under contract for NPWS, Hunter Region. NPWS commissioned a detailed vegetation survey following a threatened species assessment one year previously (Peake 1998a) for proposed timber removal along the boundary of the reserve. The report required a survey along the fenceline to determine the presence of significant vegetation communities, flora species and fauna habitat. In 2003 NPWS commissioned a report to document the vegetation of the reserve, incorporating recent vegetation plots undertaken by the Nandewar biogeographical region vegetation survey and to include a more detailed 1:25,000 vegetation map.; ; VIS_ID 703
