Tracking Groundwater Extraction	<p>Name: Tracking Groundwater Extraction</p> <p>Protocol: WWW:DOWNLOAD-1.0-http--download</p> <p>Description:</p> <p>The amount of groundwater that can be extracted from a groundwater source is limited. While the amount extracted by all water users varies each year, on average it cannot exceed the extraction limits (i.e. the long-term average annual extraction limit or the Sustainable Diversion Limit).</p> <p>This dashboard uses the best available information at the time. The department will announce available water determinations and maximum water account debit on 1 July each year after considering final assessments.</p> <p>Function: download</p>
